

1st Joint French Workshop in Macroeconomics (JFWM)

The Foundation Banque de France, together with the French institutions listed below, is organizing its 1st workshop in macroeconomics on November 25th. The goal of this new workshop is to bring together European macroeconomists to discuss current frontier research on a regular basis. To encourage participation from young economists in particular, we aim to reserve 50% of the presentation for economists who have completed their PhD's no more than 6 years ago.

Applications from economists from *all* French and European institutions are welcomed in all fields of macroeconomics including financial, international, monetary and labor economics. Theoretical and empirical contributions are equally welcome.

The workshop is a one day workshop, which will take place in Paris at Banque de France on November 25th. A conference dinner is scheduled in the evening of Thursday, 24th of November. Funding is available for presenters.

Submission of papers

Interested authors submit a draft of their paper in electronic form (PDF format) at jointmacro@gmail.com by **October 10**. The authors of accepted papers will be notified October 15.
